

## Reduce Costs with Sealift2 Total Care

With the high cost of traditional boat lifting services many boat owners are restricting themselves to a single annual haul out onto hard standing and spending the rest of the year sailing with a dirty hull. This reduces speed and significantly increases fuel costs.

Sealift2's Total Care Pack changes this. Compared to the price of a single Sealift, clean and overnight antifouling paint service the incremental cost of our Total Care Pack is the cost of one standard lift and clean service and yet it provides one lift, clean and overnight antifouling paint service plus two additional lift and clean vouchers – i.e. one of the lift and clean services is completely free of charge.

Service vouchers can be used in any order over a twelve month period. Even if you do not plan to clean your hull three times per year, our Total Care Pack gives you peace of mind as the lift and clean vouchers may also be used for emergency works such as removing ropes from propellers, anode changes and hull inspections.

## Sealift2 2010 Price List

Boat Length	Lift & clean	Lift, Clean & Antifoul	Total Care Pack
